

Cynthia A. Niaz

Minneapolis, MN | GitHub: github.com/CynthiaNiaz | CynthiaNiaz.com

EDUCATION

CARLETON COLLEGE

Bachelor of Arts in Physics

Northfield, MN

Expected June 2027

Relevant Coursework: Thermodynamics, Electronics, Data Structures, Software Design, Mathematical Structures

Activities: Varsity Cross Country and Track & Field, Society of Physics Students

PROFESSIONAL EXPERIENCE

ORACLE

Remote

Data Engineering Intern

January 2026 – Present

- Architected a Microsoft Fabric workspace and Lakehouse for data ingestion, transformation, and pipeline workflows.
- Built AI-powered data pipelines using Azure OpenAI (GPT-4o) and Python to automate large-scale data processing.
- Designed and maintained data models supporting structured output generation for enterprise analytics projects.

MODERN COMMERCIAL REAL ESTATE

Edina, MN

AI and Process Optimization Intern

July 2026 – Present

- Built AI workflows automating lease analysis, site selection, and market research for a CRE advisory firm.
- Developed LLM-powered tools (Python, OpenAI API) to streamline brokerage operations with firm principals.
- Designed data pipelines integrating market, demographic, and competitor data for broker decision-making.

U.S. DISTRICT COURT, DISTRICT OF MINNESOTA

Minneapolis, MN

Judicial Intern – Chambers of the Hon. William J. Fisher

June 2025 – September 2025

- Analyzed pleadings, motions, and dockets using PACER and CM/ECF to track case progression and judicial reasoning.
- Observed federal bankruptcy hearings and contributed to community engagement initiatives including Court Camp.

3M • Inventor Extern

Maplewood, MN • December 2024

WELLS FARGO BANK • Teller

Wayzata, MN • June 2024 – September 2025

INDEPENDENT PROJECTS

COURT, EXPLAINED (courtexplained.org)

May 2026 – Present

- Built an end-to-end pipeline that ingests federal court opinions from the CourtListener API and generates tiered plain-English summaries (one-sentence, three-paragraph, and full legal analysis) using the Anthropic Claude API.
- Deployed a Next.js 15 frontend on Vercel with a Supabase/PostgreSQL backend and daily GitHub Actions automation.

CAMPUS INVOLVEMENT

CARLETON COLLEGE – MAKERSPACE

Northfield, MN

Makerspace Manager

September 2025 – Present

- Guided students in prototype design and fabrication using 3D printers, laser cutters, microcontrollers, and electronics tools.
- Maintained the troubleshoot equipment; provided technical support in CAD, soldering, and rapid-prototyping workflows.

CARLETON COLLEGE – FOCUS PROGRAM

Northfield, MN

Physics Mentor

January 2026 – Present

- Mentored underrepresented STEM students in introductory physics, classical mechanics, and electricity & magnetism.
- Provided one-on-one and small group academic support, adapting instruction to varied backgrounds and preparation levels.

SKILLS

- **Programming & Tools:** Python (NumPy, Pandas), SQL, HTML/CSS, JavaScript, Git, LaTeX, Microsoft Fabric, Azure
- **Data & Analytics:** AI Pipelines, Data Visualization, Monte Carlo Simulation, Statistical Analysis, Machine Learning
- **Technical:** Computational Modeling, Electronics Design, CAD, 3D Printing, Laser Cutting, Technical Writing
- **Languages:** English (Native), Persian (Proficient), French (Proficient)
